Work experience at the MusicMaker Academy has shown us how the running of a small business like this one requires a lot of hard work. From a students point of view the academy is known only as the place where they go to learn their instrument, but the things that take place behind the scenes are very different, accountancy, organisation, filing and hard work, without people to do these things there would be no MusicMaker Academy. We have enjoyed our time here and are very grateful to all the staff that have made it such a fun and useful 2 weeks and fully appreciate the work required to successfully run the MusicMaker Academy.
